Lansing, MI 48933

Tell Ingham County Commissioners:

No Discrimination!

No Wasteful Spending!

No Project Labor Agreements!

**As Ingham County
Commissioners propose to cut
sheriff patrols**

**They're looking to
overspend
on discriminatory construction.**

Say NO to unfair PLAs!

Some Ingham County Commissioners are considering unfair construction deals called project labor agreements (PLAs) that only allow contractors who have collective bargaining agreements with labor unions to monopolize Ingham County construction projects. That's discrimination against non-union contractors that would cost their qualified and skilled local employees a chance to work.

Ingham County should care about fairness. And taxpayers should know that bids go higher and the budgets get bigger with PLAs – sometimes 20 percent bigger* – because PLAs cut competition.

Can Ingham County really afford discriminatory and expensive sweetheart deals for Big Labor as we struggle to protect our community and families from sheriff patrol cuts?
