ABC of Iowa Very Disappointed in the Board of Regents Decision to Implement Project Labor Agreement for Clinic

DES MOINES – ABC of Iowa released the following statement from Greg Spenner, ABC of Iowa President & CEO, regarding the Board of Regents decision last week to implement a Project Labor Agreement (PLA) for the construction of the new the University of Iowa Hospitals and Clinics to outpatient clinic at the Iowa River Landing site in Coralville.

“We are very disappointed in the 5-3 partisan vote taken by the Regents on Thursday, August 5, 2010 to implement a PLA for the new outpatient clinic at Iowa River Landing in Coralville, IA. PLAs are blatantly discriminatory as the language prohibits merit shop contractors from being able to use all of their own workers, making it impossible to bid on such a project. PLAs, which are contract agreements written by union bosses, are designed to ensure that projects are awarded only to unionized contractors. In Iowa, 8 out of 10 construction workers have chosen not to join a construction labor union. A union negotiated contract, such as the one the five democrat members of the Board of Regents forced on the University of Iowa, specifically prevents such a large majority of Iowa’s construction workforce from working on a project. This is blatant discrimination and the Culver cronies on the Board of Regents took this partisan action under direct pressure from Governor Culver who signed an executive order earlier this year requiring state agencies to consider using these discriminatory agreements. Iowans deserve leaders who do not make decisions simply meant to reward political donors. In this case, Big Labor is the winner, at the expense of the majority of Iowa workers - - hard working, tax paying citizens who have chosen not to join a union.”
